introduction

PART I: MICROECONOMIC ISSUES

CHAPTER I: ECONOMICS FUNDAMENTALS. CONCEPTS AND PRINCIPLES

What is economics?
The production possibility frontier (PPF)
The principles of economics
Circular flow of income
Exercises
Real economic cases
- Case 1: Peru
- Case 2: Ecuador
Activities to develop

CHAPTER II: DEMAND AND SUPPLY

Markets and Prices: Demand and Supply
Market Equilibrium
Exercises
Real economic cases
- Case 1: Venezuela
- Case 2: Peru
- Case 3: Ecuador
Activities to develop

CHAPTER III: ELASTICITY, EFFICIENCY AND EQUITY IN A COMPETITIVE MARKET

Elasticity of demand and supply
Exercises on elasticity
Exercises with answers
Efficiency and equity:
- Consumer surplus and producer surplus
- Market Efficiency
Efficiency and equity Exercises
Proposed efficiency and equity exercises
Real economic cases
- Case 1: Brazil
- Case 2: Peru
- Case 3: Peru
Activities to develop

CHAPTER IV: CONSUMER THEORY. CONSUMPTION OPTIMIZATION

Budget Constraint
Utility
Indifference curves
The optimal choice of consumption
Exercises
Proposed Exercises
Real economic cases

- Case 1: Peru
 - Case 2: Colombia
- Activities to develop

CHAPTER V: THEORY OF THE FIRM. PRODUCTION ORGANIZATION

- The firm and its economic problem
 Firm constraints
 The market and the competitive environment
 Exercises with answers
 Proposed Exercises
 Real economic cases
 - Case 1: Colombia
 - Case 2: Peru
 Activities to develop

CHAPTER VI: PRODUCTION, COSTS AND FIRM DECISIONS

- The production function
 Factors of production
 Total product, marginal product and average product of labor
 Cost curves
 Long-Run Average Cost Curve (LRAC)
 Exercises with answers
 Proposed Exercises
 Real economic cases
 - Case 1: Colombia
 - Case 2: Peru
 Activities to develop

CHAPTER VII: PERFECT AND IMPERFECT COMPETITION MARKETS

- What is perfect competition?
 Maximization of profits
 Short and long-run decisions
 Profits and losses in the short-run: breakeven point and shutdown point
 Equilibrium in the short-run
 Imperfect competition
 Monopoly
 Monopolistic Competition and Oligopoly
 Traditional models of oligopoly
 Exercises
 Proposed exercises
 Real economic cases
 - Case 1: Argentina
 Activities to develop

CHAPTER VIII: INTERNATIONAL TRADE

- Comparative (and Absolute) Advantage and International Trade
 The Ricardian model of international trade
 Profits from international trade
 Consumer and producer surplus
 International trade restrictions

Exercises

Real economic cases

- **Case 1: Latin America**
- **Case 2: Peru**
- **Case 3: Peru**

Activities to develop

PART II: MACROECONOMIC ISSUES

CHAPTER IX: MAIN MACROECONOMIC AGGREGATES

Perspective and macroeconomic aspects

Basic Concepts: Gross Domestic Product (GDP), employment, unemployment, inflation, price Level.

Instruments of macroeconomic policy

Exercises

Real economic cases

- **Case 1: Peru**
- **Case 2: Peru-Panama**

Activities to develop (Chapter IX)

CHAPTER X: THE FULL-EMPLOYMENT ECONOMY, LABOUR MARKET AND POTENTIAL GDP

The Classical model

The labor market and potential GDP

Labor Market Equilibrium: Unemployment and full employment

Minimum wage Family Basket

Exercises

Real economic cases

- **Case 1: Brazil**
- **Case 2: USA**

Activities to develop (Chapter X)

CHAPTER XI: MONEY, INFLATION AND THE PRICE LEVEL

Money: Types and functions of money

The money market: Demand and supply of money

Money market equilibrium

Money Creation and the Money Multiplier

Money multiplier

Central Banks

Monetary Policy and Schools of Economic Thought

Exercises

Real economic cases

- **Case 1: Chile**
- **Case 2: Peru**

Activities to develop

CHAPTER XII: AGGREGATE SUPPLY AND DEMAND AND THE MULTIPLIER

Aggregate supply/Aggregate Demand model

Movement along the AD and AS curves

Macroeconomic equilibrium: Short and long run

The Keynesian Cross

The Keynesian Multiplier

Exercises

Real economic cases

- Case 1: Peru
- Case 2: Argentina
- Case 3: Peru

Activities to develop

CHAPTER XIII: FISCAL AND MONETARY POLICY

Fiscal policy

Objectives and economic environment of fiscal policy

Stabilizing the business cycle: Expansionary and contractionary policies

Discretionary fiscal policy and automatic stabilizers

Monetary policy

Objectives and economic environment of monetary policy

Decision-making strategies of the Central Bank

Exercises

Real economic cases

- Case 1: Peru
- Case 2: Latin America

Activities to develop

Chapter XIV: MACROECONOMICS OF OPEN ECONOMIES

Open economy macroeconomics

International trade

Balance of payments

Open economy with flexible exchange rates

The forex market

Purchasing power parity: Law of one price

Effects of exchange rates on the economy

Equilibrium total output (income) in an open economy

The total planned spending and international sector

Determining the level of imports

Equilibrium solution

Open economy multiplier

Real economic cases

- Case 1: Peru
- Case 2: Latin America

Activities to develop

Part III: NEW CONCEPTS ABOUT ECONOMY - THE ECONOMY IN THE DIGITAL AGE

Chapter XV: THE ECONOMICS OF INFORMATION AND COMMUNICATIONS; AND THE GLOBAL ECONOMY

Introduction

The knowledge economy

Development of the new economy

Generation of information in the knowledge economy

Characterization of knowledge economy

Impact of technology on the economy

Policies focused on innovation

Real business cases

- Case 1: Peru
- Case 2: World-International
- Case 3: Peru

CHAPTER XVI: BIODIVERSITY AND ECONOMICS

The ecological system of the Earth

The relationship between economic and ecological systems

Economy of services from ecosystems

Externalities: Total economic value of services from ecosystems

Comparison between pollution and production

Real business cases

- Case 1: Peru

- Case 2: Colombia

- Case 3: Peru

CHAPTER XVII: GROWTH AND DEVELOPMENT: CONCEPTS CONVERGENT?

Economic Growth

Comparison of the levels of global economic growth

Development

Development policies

Real business cases

- Case 1: Bolivia

- Case 2: Peru

CHAPTER XVIII: NEW TECHNOLOGICAL DEVELOPMENT AND CHALLENGES FOR THE ECONOMY

New technological development and challenges for the economy

The revolution of 3D printers

Economic rationality and the map of the brain activity

Drones and the future of logistics

Social networking and object relations

Despite technological leaps, there is a further way to go

APPENDIX 1: SPECIAL TOPICS ON PERU

Insufficient labor productivity in Peru

Social capital, sustainable development, biodiversity and genetics

APPENDIX 2: ELEMENTARY MATHEMATICS FOR UNDERSTANDING ECONOMICS
